

MMB8D DB25 AES/EBU Cabling System

Wireworks MMB8D Cabling System is the only full line of cabling products utilizing AES/EBU components designed specifically to meet the exacting needs of the audio professional in both the digital and analog domains.

The MMB8D cabling system consists of the unique MMB8D MiniStageBox and MMLB8D MiniLineBox, DB25 Trunks and the convenient MMBR Rack Adapter for the MMB8D and MMLB8D boxes.

Heavy duty AES/EBU cabling. All products in the MMB8D Cabling System use true AES/EBU 110 Ω rugged jacketed cable and all the connectors have strong metal bodies and gold contacts for superior electrical connections.

Unique MiniStageBoxes. The cleverly designed MMB8D MiniStageBoxes use unique, all steel chassis which are as small as they can be - only 1RU high x 9.5" wide (1/2 rack

width) and 3" deep. Each box has 8 Neutrik black/gold connectors on one side (all male, all female or 4 male and 4 female XLRs or 8 TRS) and a high quality DB25 female gold contact connector on the other side.

This unusually small package allows the widest variety of uses. With the included base-plate, the MMB8D is a tiny stagebox or for simple wall mounting. Without the baseplate, the MMB8D can be hung or hidden away. Two MMB8D's can be mounted side-by-side in the MMBR Rack Adapter and will use only 1ru in your rack!

The MMLB8D MiniLineBox is similar to the MMB8D MiniStageBox but instead of having the DB25 female connector mounted on the box, it is terminated to a DB25 male connector to a hardwired 4ft cable. This enables the MMLB8D to be connected directly to your equipment without the need for an additional DB25/DB25 interconnecting cable.

DB25/DB25 Heavy Duty Trunks

To complement the MMB8D products, DB25 Trunks are available in 5 convenient lengths - 5, 10, 15, 20 and 25ft. with other lengths to order. As with the whole range, these trunks which have a very sturdy DB25 male connector on each end, utilize the finest AES/EBU cable with full size conductors for the best durability. The DB25 connectors use heavy duty metal back shells with captive thumb screws and have gold contacts. By using a DB25 trunk, the reach of the MMB8D MiniStageBox can be conveniently matched to your system needs. Alternatively, these trunks provide an excellent equipment-to-equipment interconnect which will last a lifetime.

Easy Rack Mounting

Finally, the MMBR Rack Adaptor completes the convenience of the MMB8D Cabling System by allowing a simple side-by-side rack-mounting for any combination of two MMB8D or MMLB8D boxes in only 1 rack space. The boxes can each be mounted in either a flush or recessed position and can also be mounted with either the eight connectors or the DB25 facing forward!

All connectors used in the Wireworks MMB8D Cabling System have sturdy metal bodies and gold plated contacts for great signal transmission even in harsh environments. All the AES/EBU 110 Ω cable is selected to prevent your cables being out-matched by your other equipment.

All MMB8D Cabling System products are available wired for digital applications or for analog applications.

MMB8D DB25 AES/EBU Cabling System

For over 30 years, the industry has trusted Wireworks first and foremost for design, innovation, manufacturing quality and customer service. Now you also have 8 channel AES/EBU cabling products that you can trust. Remember, it's Wireworks or compromise - you make the choice.

HIGHLIGHTS

- Built to provide road-tough durability for the uncompromising professional
- Designed to provide convenience and simplicity for AES/EBU cabling needs
- Offers all heavy duty AES/EBU 110 Ω cabling throughout
- Uniquely designed steel boxes for the MMB8D and MMLB8D products
- Manufactured using only high durability components – full size conductors in the cables and metal body connectors with gold contacts
- Created to provide wide flexibility for easy system reconfiguration
- All Neutrik XLR and TRS black/gold connectors
- Offers choice of digital or analog wiring
- Backed up by Wireworks lifetime warranty.

DB25 MiniStageBox

Mini 8 Channel Input/Output StageBox with 8 chassis connectors on one side with 1 DB25 Female on the other side. Rack mountable with MMBR adapter. AES/EBU 110 Ω cable.

	DIGITAL Wiring*	ANALOG Wiring*
4 XLR3 Male + 4 XLR3 Female to 1 DB25 Female	MMB8DX/D	MMB8DX/A
8 XLR3 Male to 1 DB25 Female	MMB8DM/D	MMB8DM/A
8 XLR3 Female to 1 DB25 Female	MMB8DF/D	MMB8DF/A
8 TRS Jacks to 1 DB25 Female	MMB8DP/D	MMB8DP/A

DB25 MiniLineBox

Mini 8 Channel Input/Output StageBox with 8 chassis connectors on one side with a 4 foot tail terminated in a DB25 Male. Rack Mountable with MMBR adapter. AES/EBU 110Ω, 26 AWG High-Speed Low Loss, Crush Resistant, Light Weight, Purple PVC Jacket, 0.54 in Overall Diameter.

	DIGITAL Wiring*	ANALOG Wiring*
4 XLR3 Male + 4 XLR3 Female to 1 DB25 Male	MMLB8DX/D	MMLB8DX/A
8 XLR3 Male to 1 DB25 Male	MMLB8DM/D	MMLB8DM/A
8 XLR3 Female to 1 DB25 Male	MMLB8DF/D	MMLB8DF/A
8 TRS Jacks to 1 DB25 Male	MMLB8DP/D	MMLB8DP/A

DB25 Trunk

DB25 Trunk - DB25 Male wired to a length of cable terminated on the other end with a DB25 Male connector. AES/EBU 110Ω, 26 AWG, High-Speed Low Loss, Crush Resistant, Light Weight, Purple PVC Jacket, 0.54 in Overall Diameter.

	DIGITAL Wiring*	ANALOG Wiring*
DB25 Male to DB25 Male 5 Ft	MK8D-5/D	MK8D-5/A
DB25 Male to DB25 Male 10 Ft	MK8D-10/D	MK8D-10/A
DB25 Male to DB25 Male 15 Ft	MK8D-15/D	MK8D-15/A
DB25 Male to DB25 Male 20 Ft	MK8D-20/D	MK8D-20/A
DB25 Male to DB25 Male 25 Ft	MK8D-25/D	MK8D-25/A

Rack Adapter

Rack adapter for mounting up to 2 MMB8Ds or MMLB8Ds side by side in a 1 RU space.

	DIGITAL Wiring*	ANALOG Wiring*
MMB Rack Adapter 1 Rack Space High	MMBR	MMBR
